on sponsorship opportunities please contact:
Curtis Jennings - 623-337-6698

In 2017, Life Ansanm was founded to establish a holistic partnership with the community of Cap Rouge by working with local leaders and outside partners to create sustainable models. These models were established by investing in and working alongside the locals to provide quality education for children, create jobs and support families by providing quality healthcare and community development.

Over the last six years Haiti, unfortunately, has seen some of the worst conditions in its history. Natural disasters, Covid, violent gang presence throughout the country and the most difficult economic situation it has ever endured. These events have plagued the country and have left many families and communities without vital resources needed for survival.

In the village of Cap Rouge, Life Ansanm is still fighting and working to help provide the community with programming, partnerships and resources that are vital for survival and the overall well being for its people.

At Life Ansanm, TOGETHER is more than a name, it's who we are. Our mission is all about doing life together with the people of Cap Rouge and we believe that TOGETHER we can fight to rise above these injustices.
